

# Complex Sterile Manufacturing Know-how?

## PFIZER'S GOT IT.

Finding a qualified source for sterile manufacturing - with expertise you can trust - is a difficult challenge. You need a contract manufacturer with state-of-the-art capabilities and extensive expertise for even the most complex pharmaceutical and biopharmaceutical formulations - covering everything from freeze-dried and aseptic filling to a wide variety of vials and pre-filled syringes. Access to Pfizer's sterile manufacturing capabilities gives you all that and more:

- Development- and commercial-scale production capabilities
- Dedicated customer service team
- Full technology transfer, process optimization, and validation
- Access to Pfizer's advanced technology production infrastructure

When you need a consistent, reliable supply - and peace of mind - you need Pfizer CentreSource. Call today to find out more.
